

Integrating Management Systems (3 Days)

Australian
Organisation for
Quality - Queensland
(AOQ-QLD)

Leading organisations are becoming increasingly aware that combining their OHS, quality, and environmental management systems into a single, integrated management system (IMS) gives them a clear competitive advantage – reducing duplication and increasing their operational efficiency.

This course will provide you with the knowledge to build, implement and maintain an IMS covering ISO 9001, ISO 14001, and AS/NZS 4801 – OHSAS 18001.

Learning Outcomes

- > Risk-based thinking and its application to modern management systems
- > Understand the process approach and its benefits to business
- > Integration of the customer into organisational processes
- > Life-cycle assessment and its implications for an organization's environmental aspects
- > Effective and timely HIRAC processes

Who Should Attend

Anyone involved in IMS and people who:

- > need to write and implement an IMS
- > are involved in the Quality, Environmental, OHS, or IMS management processes
- > are managers responsible for their IMS and IMS auditing
- > wish to consolidate their existing knowledge into a formal qualification

Qualifications

A Certificate of Attainment with 3 Internationally recognised Exemplar Global competencies:

- > OH – Occupational Health Systems
- > EM – Environmental Management Systems
- > QM - Quality Management Systems

This course gains 24 Professional Development (PD) points.

Prerequisites

No prerequisites for this course.

Assessment

Workshops during the course form the bulk of the assessment. A short multiple-choice exam at the end of each module confirms knowledge and understanding gained. You will receive continual assistance and feedback from the trainer.

- > No homework or take-home assessments or assignments!

Delivery

Public - Face to Face

- > Capital Cities and regional centres
- > Manageable class sizes
