

# Information Security Management Systems (3 Days)

Australian  
Organisation for  
Quality - Queensland  
(AOQ-QLD)

This training course outlines the key processes and approaches a business needs to manage information security risk in a practical way. The course covers how to implement and audit an Information Security Management System (ISMS) adhering to the specific requirements of ISO/IEC 27001- an increasingly important standard for modern businesses. Topics like classifying information and risk based thinking in information security are addressed.
