

Lean Overview (2 Day)

Australian
Organisation for
Quality - Queensland
(AOQ-QLD)

**In-House
Course ONLY**

Lean is a term used to describe a continuous commitment to improve a manufacturing or business process by preserving value with less effort.

The constant in any Lean activity is the discovery of, and removal of waste. Wasted Material, Motion, Time and Space are categories where opportunities for waste removal exist.

This training provides the necessary knowledge and skills for your organization's Lean success and for you to quickly become a highly regarded Lean Practitioner.

Learning Outcomes

- > Lean Introduction
- > Lean Concepts including
- > Capturing Lean Activities
- > 7+1 Deadly Wastes
