

## Lean Six Sigma Overview (1 Day)

Australian  
Organisation for  
Quality - Queensland  
(AOQ-QLD)

Six Sigma is a business process improvement strategy focusing on achieving measurable and quantifiable financial returns from any improvement project through the removal of waste and variation.

This awareness session is an introductory programme of training designed to provide an overview of "Lean" and "Six Sigma" managers and executives, including other staff. This course provides an awareness of deploying Lean Six Sigma and the impact of this initiative as a Business Process Improvement program.
